Bill Griffin’s experience in the international environment includes the professional services business and university teaching.

In the professional services business, he was in a management role on large projects. For the Batu Hijau project, a gold and copper mine, he was Contracts Manager during the design stage. This was a \$2.2 billion enterprise owned by Newmont Mining Company and the Government of Indonesia. This facility is now in operation on the Island of Zumbawa. Bill was Regulatory Manager and Project Manager for design of the Claiborne Enrichment Center. This \$800 million chemical processing facility was designed for companies from Holland, Germany and the United Kingdom. It was constructed in New Mexico. For Canadian forest products company McMilan Bloedel, he provided regulatory compliance assistance for their facility in Alabama.

Bill was a full time university professor from 2004 to 2012. He taught every international course in his university’s catalog. At the graduate level, he taught Legal Environment for Global Organizations, International Business and International Management. He was a member of the management team that created a new graduate program concentration in International Business. At the undergraduate level, he taught International Business, International Financial Management, International Relations, and Managing Across Cultures. He has visited over a dozen foreign universities.

He has lived in France and Italy. Bill has visited over two dozen countries. Business travel has taken him to Brunei, Malaysia, Hong Kong, China, Japan, Singapore, France, Belgium, Dubai, Oman, England, Holland, Switzerland and elsewhere. Personal travel has taken him to Mexico, Canada, Colombia, Germany, Italy, Austria, Bermuda, Peru, Ireland, Andorra, Spain, Monte Carlo and elsewhere.

His education includes a BS in Civil Engineering from Georgia Tech, MS in Environmental Engineering from Northeastern University, Juris Doctor from Suffolk Law School, and MS in Technology Management from Pepperdine University. He was an honor student in all four programs. His MS in Technology Management emphasized development of leaders for the global economy, and it included a month of business travel to five countries.
